FAMILY AND PARTY GAMES FOR ALL AGES!

Looney Oracle

The Looney Oracle can answer all of life's questions with spooky accuracy! But first you will have to answer the Oracle's questions. Both fun and surprisingly deep, the Oracle is a great take-along to parties and sleepovers!

Get the MacGuffin

In this quick card game, 2-11 players must make the best use of the few cards they are dealt to stay in the game. Some cards are powerful, others not so much. The coveted MacGuffin can make all the difference!

Nanofictionary

What's your story? Players combine Character, Setting, Problem, and Resolution cards to create a unique tale to tell.

Are You the Traitor and Are You a Robot

Two social deduction games where it's all about spotting the liars! In Are You the Traitor, try to figure out which of your fellow adventurers is the Traitor, and which Wizard to give the Key to. In Are You a Robot, it takes just 2-3 people to enjoy puzzling over which among you is really human... or get multiple copies to play with bigger groups!

Mad Libs: The Game and Choose One

Don't miss these ice-breaker games for as few as three or as many as ten! One is based on Mad Libs, the world's most popular word game. Fill in the funny using cards that capture all the unexpected silliness of the classic activity books. In the other, learn something new about your friends! Do they prefer Batman or Spiderman? The Window or the Aisle? Bagpipes or Kazoos? Contains 300 this-or-that cards, a board, and ten tokens.

Just Desserts

Acting as wait-staff, be the first to serve a group of finicky guests, each of whom is craving a completely different selection of mouth-watering desserts. For 2-6 players.

Seven Dragons and Aquarius

Similar games with very different artwork, these domino-style card games have secret goals and include rules for playing with children as young as three. Seven Dragons features detailed paintings by famed dragon artist Larry Elmore, and Aquarius has sixties-style artwork of natural elements!

TIME TRAVEL GAMES

Time Breaker

It's a chase across time to catch a chrono-criminal! 2-5 players become Time Agents racing to capture the Time Breaker and bring them back to Time Repair HQ before someone else does!

Chrononauts

Chrononauts is a many-layered time travel game that enables players to alter historic realities in the 20th century and collect artifacts from the past or the future. It can be played solo or with up to five others!

Early-American Chrononauts

Time travel moves into another century! It's got everything you love about the original game, but now in the 1800's. Play on it's own as a stand-alone game or combine with Chrononauts for a multi-century experience called ÜberChrononauts!

Star Trek Chrono-Trek

In this version of Chrononauts, 2-6 players become classic *Star Trek* characters from (almost) every era of the franchise, each seeking to find a way back to their version of reality by changing *Star Trek* history.

LOONEY PYRAMIDS

Pyramid Arcade

It's a complete game library in one box! Contains 90 of our signature gaming pyramids along with all the special bits and instructions needed to play 22 different tabletop games. Some are easy, some complex. Endless fun for 2-10 players!

Jinxx

An abstract strategy game for 2-4 players, featuring grayscale pyramids in three sizes and four colors. Using piece size and die roll to determine possible moves, players try to capture an opponent's piece or better position their own while avoiding elimination.

Pink Hijinks

A roll of the die determines which piece(s) to move while attempting to fill your row with three of the same-sized pyramids. This game for two only takes 15 minutes, and is the only game to feature pink pyramids!

Nomids

An introductory game for 2-10 players. Everyone starts with three pyramids. The first player to get rid of them all – to have no 'mids – is the winner!

Ice Duo

A pair of very different two-player games; a press-your-luck style dice game, and a secret goal strategy game!

Martian Chess

An out-of-this-world game in which color has no meaning and position is everything! It also adds a brand-new pyramid color, Martian Red! For two players.

Homeworlds

Homeworlds is a deep abstract strategy game of perfect information, resource management, and galactic war. Can you destroy your opponent's Homeworld before their space fleet reaches yours? For two players.
